## ATTACHMENT TO 2011 CPNI COMPLIANCE CERTIFICATE

### Statement of CPNI Compliance

I, SIMON FIDDIAN, sign this Statement of CPNI Compliance in accordance with Section 222 of the Telecommunications Act of 1996, as amended, 47 USC 222, and the FCC's Code of Federal Regulations (CFR) Title 47 § 64.2009, on behalf of Wavecom Solutions Corporation fka Pacific Lightnet, Inc. ("Wavecom Solutions"). This Statement addresses the requirement of 47 CFR § 64.2009 that the Company provide both a Certificate of Compliance and a "statement accompanying the certificate" to explain how its operating procedures ensure compliance with 47 CFR § 64.2001-.2009.

On behalf of Wavecom Solutions, I certify as follows:

1. I am the Chief Technology Officer of the Company. My business address is 1132 Bishop Street, Suite 800, Honolulu, Hawaii 96813.
2. I have personal knowledge of the facts stated in this Certificate of Compliance. I am responsible for overseeing compliance with the FCC rules relating to customer proprietary network information (CPNI). The Company qualifies as a "small business concern."
3. The Company is conducting ongoing training for its personnel addressing the definition and categories of CPNI, procedures to safeguard CPNI, and procedures to report breaches of CPNI.. Personnel who make unauthorized use of CPNI are subject to disciplinary action, up to and including termination.
4. During 2011, Wavecom Solutions did not use, access, or disclose CPNI for the purpose of its sales and marketing campaigns or for services outside the category of services already subscribed to by the customer. In the event Wavecom Solutions authorizes use of CPNI in any future sales and marketing campaigns, the Company's policy is to maintain records of its own sales and marketing campaigns that use CPNI. These records include a description of each campaign, the specific CPNI that was used in the campaign, and the products and services that were offered as a part of the campaign. The Company's policy is to maintain these records in its offices for a minimum of one year.
5. Prior to any solicitation for customer approval, the Company will provide notification to the customer of the customer's right to restrict use of, disclosure of, and access to that customer's CPNI in accordance with 47 CFR 64.2008. The Company's policy is to maintain records of customer approval for use of CPNI, as well as notices required by the FCC's regulations, for a minimum of one year, in a readily-available location that can be consulted on an as-needed basis so that the status of a customer's CPNI approval can be clearly established prior to the use of CPNI.

6. The Company's policy is to maintain records of a CPNI breach for a minimum of two years. These records will include a description of the steps the Company took to prevent the breach, how the breach occurred, the impact of the breach and proof of notification to law enforcement and the customer, if applicable.
7. During 2011, Wavecom Solutions did not use, access, or disclose CPNI to conduct outbound marketing. The Company has a supervisory review process regarding compliance with the FCC's rules relating to protection of CPNI for outbound marketing situations. The purpose of this supervisory review process is to ensure compliance with all rules prior to using CPNI for a purpose for which customer approval is required. Company personnel, prior to making any use of CPNI, must first consult with me regarding the lawfulness of using the CPNI in the manner contemplated. In deciding whether the contemplated use of the CPNI is proper, I consult with one or more of the following: the Company's own compliance manual, the applicable FCC regulations, the FCC's Compliance Guide, and, if necessary, legal counsel. The Company's sales personnel must obtain supervisory approval from me regarding any proposed use of CPNI.
8. Authentication and data controls include, but are not limited to, the following:
  - (i) CPNI "cheat sheet" outlining customer authentication procedures posted at the work stations of all Customer Service Representatives.
  - (ii) Hard disk encryption software installed on all Company laptops.
  - (iii) Password protection enforcement on all Company issued Blackberry's.
  - (iv) Physical security policy to control access to building suites and collocations.
  - (v) Usage policy for company computers.
  - (vi) Internet policy for controlling information uploaded/downloaded to and from the internet.
  - (vii) Password policies.
9. The Company enters into confidentiality agreements, as necessary, with any joint venture partners or independent contractors to whom it discloses or provides access to CPNI.
10. I personally oversee completing and submitting the EB Docket No. 06-36 compliance certificate.
